

SMART SPECIALIZATION STRATEGY: IMPLEMENTATION STATUS AND EUROPEAN PERSPECTIVES

Experiences, initiatives and good collaboration practices of open innovation

19th June 2019 - Padua - Orto Botanico

Workshop organized by Research and Innovation Unit of Veneto Region MONITORIS3 Interreg Europe 2014-2020

The event, organized within the European project MONITORIS3 (Interreg Europe), will bring together representatives of the regional government, interested parties, experts and representatives of European organizations. It will address key issues such as the implementation of European ERDF funds, the role of different regional actors and European interregional cooperation. The strategic framework of will be the Smart Specialization Strategy and the Open Innovation approach, behind which a multiplicity of approaches are hidden, all oriented to a greater collaboration between innovative realities, startups and enterprises.
